# IAAW STUDY DAY 16.02.24

The IAAW STUDY DAY will showcase research projects by students of our MA program Asian & African Studies and feature a panel discussion and a world café on current academic debates – this year on the use of artificial intelligence within teaching / research / university spaces.

A wide range of topics – ranging from challenges of academic freedom and collaboration to transregional perspectives on global challenges – will make this an insightful, interactive and thought-provoking event for anyone interested in New Area Studies at the Institute for Asian and African Studies and the wider Humboldt-Universität zu Berlin. The event is open to the public. Be part of the conversation!
